BEING A SPEAKER AT TEDxGeneva

WE ARE TEDxGeneva

TED is an original conference format designed to convey reflections to a wide audience on topics related to Technology, Entertainment and Design. TEDx conferences are TED events organized by independent teams of TED, and under TED license.

Since 2013, we organize the TEDxGeneva conferences in Geneva. For each edition, we invite about 10 people to give their talk on stage, and share with our audience a vision, a story, an idea about a wide selection of subjects.

Our conferences cover regularly subjects such as social transformation, ecological and technological developments, the evolution of common goods through art, design and humanism. Our themes remain open and in compliance with the TED spirit, in order to allow a wide diversity of topics and innovative ideas.

Each talk is filmed, then edited and published on the web under a Creative Commons license for wide distribution in schools, professional associations, micro-entrepreneurs...

PREPARATION OF YOUR TALK

Our stage is open: we welcome speakers who have little experience in public speaking, or who are not familiar with the TED format. For these speakers, and for those who are used to be on stage and still wish to benefit from our support, we set up a coaching program to prepare the talks.

In particular, we offer the assistance of a dedicated volunteer - an assistant coach, who will guide them the 4 months prior to the event.

Once your application is selected, a coordinator will contact you in order to explain the process.

SUGGESTIONS FOR YOUR APPLICATION

Take the time to summarize your idea

In the 3-minute video you will be able to use about 500 words to describe your proposal for your TEDx Talk.

Focus on the main question your talk will answer.

Think about the impact your idea will have as of now

You will be in front of 500 decision-makers, entrepreneurs, activists ... Why does your idea have any special meaning?

Use precise and clear language

Describe your concepts so that they are understandable to a majority without compromising the quality of your idea.

Ask someone around you to film your video for you.

In this way you can focus on presenting your idea and not on the technique.

Keep your video simple, be yourself

We are looking for authentic people who have something to share sincerely in their own way. In summary, we welcome you.

Check out our [«TEDx Talk, what is it?»](#) Page: it will give you instructions on how to structure your TEDx Talk. And find the [principles recommended by TED](#) to prepare the best talk possible.
